

METS 2014 - Wolz Nautic exhibited its teak decks and products at the leading trade show for boat sector suppliers in Amsterdam

The exhibition

stand's prominent location in the Superyacht Pavilion underlines the aspirations and positioning of the teak deck specialists from Germany's Franconia region.

Besides additional amenities such as

catering on the stand and use of the "Captain's Lounge", the stand

occupied by Wolz Nautic was again embedded in the " German Yachts"

zone, which on the one hand underlines

the company's close relationship with the association and at the same time enables

the exchange of views, ideas and experiences outside the box with colleagues

from the sector.

Wolz Nautic

was represented by its management and the entire sales team. This underscores

the great importance of this event for the company. Wolz Nautic will be

exhibiting in 2015 in Amsterdam with a stand of its own again.
